

T-PB SERIES

24VAC POWER SUPPLIES

CLASS I & CLASS II

PRODUCT DESCRIPTION

The T-PB series is comprised of UL Listed (-1 suffix units) and UL Recognized Component (-0 suffix units) power supplies which provide 24VAC from a 115VAC @ 1.0A input. Each T-PB series unit includes a green pilot LED which, when illuminated, indicates that the 24VAC output is operational.

A DPDT ON/OFF switch is provided in the 115VAC input. This switch disconnects or connects both the H & N of the input power for the 24VAC output.

A 115VAC @ 5.0A convenience outlet is located on the front panel. This convenience outlet IS NOT controlled by the ON/OFF switch.

A circuit breaker is incorporated in the 24VAC output which must be manually reset if the rated 4.0A (Class I) or 3.0A (Class II) is exceeded and the breaker operates.

FEATURES

- ❖ Front visible green power-on (pilot) LED indicator
- ❖ ON/OFF power switch
- ❖ Circuit breaker protected output
- ❖ Auxiliary non-fused/non-switched convenience line power outlet
- ❖ 4.0A, 96VA (Class I) and 3.0A, 72VA (Class II) versions available
- ❖ “-0” chassis sub-assembly mount and “-1” full enclosure mounted versions available
- ❖ Front access plate for controls and auxiliary convenience outlet on “-1” versions
